

Trailers and Towing

T.R.A.I.L.E.R

The ball must be tight and the hitch is a secure fit around the ball.
Registration is current, if this is not, you don't have CTP insurance.
As the driver, did you know you take full, 100% responsibility?
Is the vehicle you are using able to tow the load?
Load is distributed evenly, covered and secured so nothing can become loose
Electrical connection must work, brakes and indicators
Regain control in an emergency, if you feel a "wobble" ease off the accelerator

C.H.E.C.K

Clarify if your route had restrictions (Bridges, Tunnels etc.)
Have good visibility at all times, checking side and rear mirrors
Ensure your tyres are properly inflated for Towing a Trailer
Chocks, and suitable Jack do you have these?
Keep an eye on your load, ensure at each stop this is distributed properly
